

Supervision

Providing professional and clinical supervision to both qualified and trainee Play Therapists, Clinical Social Workers and other therapists who wish to explore their clinical practice.

Providing a safe space to supervisees to explore their practice within a supportive relationship, using creative techniques where useful.

Supervision may cover:

- » Case consultation
- » Exploring resources
- » Exploration of practice Skills
- » Supervisee's experience of the therapy
- » Practical issues related to practicing as a Play Therapist
- » Making sense of the child's play
- » Theory in relation to practice
- » A theme, i.e.. sensory regulation, psycho-education, trauma attachment etc.
- » Case reflection
- » Training
- » Self-Care

Completed by an experienced Child Therapist/Clinical Social Worker.
