

Young people, pornography + the internet

Accessibility of pornography and use of the Internet has increased, and caregivers often do not have the confidence or training in this subject area.

Together we will;

- » Explore definitions of pornography
- » Explore pornography and the law
- » Explore young people's use of pornography and its impact
- » Increase confidence in discussing pornography with young people
- » Consider practical ways to appropriately raise this topic with the young person

Facilitated by an experienced Child Therapist/Clinical Social Worker.

Suitable for: foster carers, adopters, parents, special guardianship caregivers, teachers, teaching assistants, social workers, support workers, residential staff, therapists and supervising social workers.

Handouts provided.
