

Clinical School Observation

Do you need a clinical school observation?

It can be used to form part of a multi-agency assessment or to give an insight into the child or young person's presentation within the school environment.

Not exclusively, but the session includes reflections on:

- » General observations
- » Concentration
- » Presentation
- » Verbalisation
- » Engagement with other observer
- » Sensory observations

Process:

- » Referral form
- » Clinical school observation / discussion with class teacher
- » Summary report

Completed by an experienced Child Therapist/Clinical Social Worker.

£315 per observation
