

Specialist Assessments

We can offer Specialist Assessments funded by the Adoption Support Fund (ASF) or we can be commissioned to offer a Specialist Assessment.

In addition you can purchase a particular Assessment & Report from the list below.

As a team we are training in lots of specialist assessment tools including:

- Marschak Interaction Method (MIM) assessments
- NMT Assessments (The Neurosequential Model of Therapeutics); BrainMap
- Clinical School Observations
- Clinical Play Observations
- Trauma Checklist
- ADOS Assessments
- Sensory Profile
- Interception Assessment
- Story Stem Profile Assessments
- Qbcheck (measures the three core symptoms of ADHD; activity, inattention and impulsivity).
- CAPA (Child Attachment Play Assessment)
- Primitive Reflex Assessment
- The Right Eye
- Creyos
- BUSS (Building underdeveloped Sensory Motor Systems)

Full details of each of these Assessment tools can be found on the Website under Assessments
